Dear FCC Representative,
Please reject NAB's petition 04-160 now! Why should NAB dictate the content of a service that I am currently paying for?

The option to pay for a service that provides a variety of music as well as local traffic information is a much welcomed relief to having to listen to the useless, boring, neverending morning banter of the local radio DJs here in Houston, TX.

During my morning commutes, I recall having to repeatedly press the 'scan' button on my FM radio in an attempt to find a radio station reporting traffic info - my usual find was two or three DJs taking turns laughing at each other's stupid jokes. Please don't force that type of pain back upon me! Keep XM traffic info available to me, a paying consumer!

Respectfully,
L. O. Gutierrez
